Performance

The current period was characterized by a depressed macro-economic environment and weakened consumer spending.

Whereas the print business sector continued to experience declining revenues, digital revenue grew by 14% compared to the comparable period last year, as monetisation of our digital assets and audiences gained pace. Our digital footprint increased to 63.5 million users compared to 59.5 million in the same period last year, following sustained focus on audience acquisition and engagement. Our digital growth initiatives continue to gather pace with the latest highlight being the launch of a content subscription paywall on the redesigned *Business Daily* website, whose performance so far has been very positive.

Group turnover declined by 10% from Kshs 3.530 billion to Kshs 3.175 billion, while the incurred loss before tax of Kshs 345.8 million includes a one-off expense of Kshs 119.0 million related to staff restructuring undertaken in June 2024. Sustained focus on improving productivity and operational efficiency has kept a lid on the growth of overhead costs.

Share Buyback

The second Share Buyback closed on 12th June 2024 and 100% of the maximum shares targeted for reacquisition being repurchased.

Dividend

Considering the prevailing economic environment and the Group's investment plans, the Board of Directors does not recommend payment of an interim dividend.

Outlook

We maintain our confidence in the investments we continue to make to transform the organization, develop a portfolio of new digital products, and enhance revenue diversification by monetizing our extensive digital presence. Further, the Group will also continue to maintain a strong presence in commercially viable print and broadcast media, focusing on unique and relevant content. Together, these efforts are expected to solidify the Group's position as a leading multi-media company, delivering impactful content to our audiences.
